The puppy, as described above, is healthy to the best of the sellers knowledge and ability. It is the responsibility of the buyer, at their own expense, to have a Veterinarian examine the puppy within 96 hours (4 days) of purchase. Failure to have the puppy examined implies that the buyer accept the puppy "as is". If the Veterinarian finds a life-threatening health problem with the puppy, the buyer must inform the seller within the 96 hours (4 days) of purchase and return the puppy and registration papers to the seller within 24 hours along with a written statement from the Veterinarian as to the life-threatening health problems of the puppy. The seller will then exchange the puppy for another if possible, or refund the purchase price to the buyer. The seller is not responsible for any veterinarian bills that the buyer may incur regarding the puppy.

The puppies at Hart High Country Pets are wormed at 3 weeks of age, continuing weekly until 6 weeks of age. The first shots for the puppies are given at 6 weeks of age with the next puppy shots due at 9 and 12 weeks of age.

All the puppies at Hart High Country Pets are bred from registered parents. The buyer shall receive a registration application at the time of purchase of the puppy. That will need to be made out by the buyer and mailed in a timely manner to the registration association. This is necessary so that the buyer may receive from the association the registration certificate for the puppy

Hart High Country Pets strives to breed good, pet quality dogs with a friendly disposition that will be a welcome addition to the buyer's household. However, we can not guarantee the puppy's temperament or conformity to breed standards after time of purchase

We have read, understood, and agree to the above terms.
